

MADHYAMCONNECT · PLANS & PRICING

Three plans. Start free, grow when ready.

The MadhyamConnect plans, what each one unlocks, and how billing, renewal and cancellation work. Paid prices shown here are proposed.

1 How pricing works

MadhyamConnect is offered on a simple subscription. You can start on the free plan and upgrade any time. The only difference between plans is **how much you can do** — the features and usage limits available — not a different product.

Two things to know up front. (1) The two paid prices below are **proposed** and may change before launch. (2) Prices are shown **excluding GST**; Goods & Services Tax at the prevailing rate (currently 18%) is added, and a GST tax invoice is issued so registered businesses can claim input tax credit.

2 The three plans

PLAN	PRICE (PROPOSED)	BEST FOR
Solo	₹0	Getting started — one broker, the core workspace.
Growth	₹999 / mo + GST	An active broker who wants more capacity and tools.
Professional	₹2,499 / mo + GST	A busy broker or small firm running high volume.

Every plan includes the essentials — your profile and digital card, listings, leads, customers and collections. Higher plans raise limits and open more of the network, communication and content tools. The live in-product plan screen always shows the exact, current feature split for each plan.

Proposed pricing. ₹999 and ₹2,499 are working figures for planning; the final prices, and exactly what sits in each plan, are confirmed on genxdigitalsolutions.com at launch.

3 Which plan is for you

SOLO · ₹0

Start here

Set up your card, add listings and leads, and try the workspace at no cost.

GROWTH · ₹999

Do more

More capacity, more of the network and communication tools, for a broker in full flow.

PROFESSIONAL · ₹2,499

Run at volume

The fullest set of tools and limits for high-volume brokers and small firms.

You are never locked in: start on Solo, and move up only when the work justifies it.

4 Billing, renewal & cancellation

Paid plans are billed monthly and, where you opt into automatic payment, renew automatically until you cancel. We keep this transparent by design:

- **Clear renewal:** auto-renewal is disclosed at purchase, not buried.
- **Advance notice:** for card auto-debit under the RBI e-mandate framework, you receive a pre-debit notification at least **24 hours** before each charge (amount, date and reason). At these amounts, no additional one-time password is needed per charge.
- **Easy cancellation:** you can cancel, or turn off auto-renewal, at any time before the next renewal; access continues to the end of the paid period.
- **GST invoice:** every payment gets a GST tax invoice carrying our GSTIN and yours (where provided) so you can claim input tax credit.

Refunds and cancellations are governed by the **Refund & Cancellation Policy**; genuine billing errors and duplicate charges are always put right.

5 Upgrading & downgrading

Upgrade any time to unlock more capacity immediately. If you downgrade or cancel, your plan's features step down at the end of the current paid period, and your data stays intact within the limits of your new plan.

Your data is yours. Changing plans never deletes your listings, leads or customers; a lower plan simply limits how much is active. Full details are in the Refund & Cancellation Policy and Terms & Conditions.

DISCLAIMER

Informational only. This guide describes proposed plans and pricing for general information; prices, plan contents, taxes and billing terms may change without notice and are confirmed at genxdigitalsolutions.com. The paid prices shown are proposed and exclude GST. This is not legal, financial or tax advice. Billing, refunds and cancellation are governed by the Terms & Conditions and the Refund & Cancellation Policy. **Being finalised with legal counsel; the definitive version governs once the service is live.** © GenX Digital Solutions 2026.
